

Environmental Policy

We are at Daiken New Zealand Group see protecting the environment as part of our core values. In taking measures such as those outlined below, we aim to continue to reduce our environmental footprint.

We recognize that our business has a corporate social responsibility to enhance the environmental and promote the long-term sustainability of the panel board industry. We aim to inspire our staff, vendors and clients to do the same.

Our Policy

Daiken NZ Group is committed to the management of all its operations in an environmentally responsible manner and the continual improvement of its environmental management system.

In order to achieve our goal, we will:

- Establish and maintain an Environmental Management System according to ISO 14001 standard.
- Comply with all applicable environmental laws and regulations.
- Take effective measures to prevent pollution.
- Consider the environment in all business decisions.
- Minimise, if possible, eliminate waste and use natural resources effectively.
- Encourage recycling as a part of our day-to-day business and processes.

Our Commitments

- Understanding and managing our environmental risks with the goal of minimising or eliminating those risks.
- Ensuring the environment is considered in our business decisions, procurement and the products and services we offer.
- Actively working to prevent pollution, manage waste streams and address relevant biodiversity issues.
- Engaging with our customers, employees and shareholders on environmental issues.
- Providing all employees with the training and education necessary to meet our objectives.
- Complying with all applicable legal and regulatory requirements.
- Regularly review environmental objectives and targets and the continually seek to improvement of our ISO14001 environmental management system.
- Openly communicate our policies and commitments.
- Monitor and record our environmental impacts on a regular basis and compare our performance with set policies, objectives and targets.
- Reducing our waste products, purchasing reusable products wherever possible and recycling relevant products.
- The ongoing increased efficiency in the use of natural resources such as water and the responsible use of electricity.

Working with our Partners

Daiken NZ Group expects our suppliers and other partners to understand, accept and be aware of our environmental policy and all applicable laws, and communicate this to those engaged in the supply chain.
